Statement

Built Right. Built On Time.

When a demanding and challenging project requires Steel Structure Fabrication, clients turn to our unmatched capabilities to meet their complex design-build requirements. As the recognized industry leader in the fabrication, design, engineering and erection of structural steel throughout the Indonesia, the core priority of our company is to successfully exceed client expectation by focusing innovation, knowledge and commitment on every commercial, industrial and public structure we assemble.

We are steel supplier and structural steel fabrication by providing a dynamic full range of steel material, design, engineering, fabrication and erection services. Our complete in-house capabilities successfully enables fast response, maximum flexibility and complete coordination of all phases of any project. Our clients are assured of a more profitable venture because our comprehensive array of services provides well-managed projects, with better quality, predictability, and cost efficiency. We utilize equipment to handle all aspects of steel fabrication, as well as the application of the sophisticated painting and coatings so crucial.

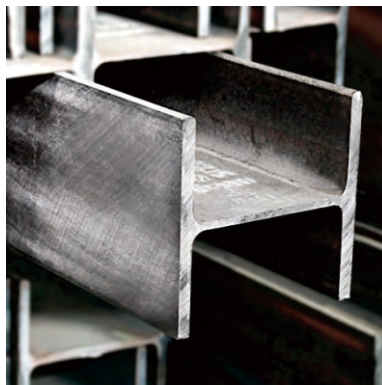

Steel Supply.

Our reputation for exceptional performance over a comprehensive spectrum of steel fabrication and erection projects can best be appreciated by viewing the steel structures we have proudly erected. We apply an exceptional fabrication methodology to every type of structural challenge presented to us. You can always recognize our project by the craftsmanship apparent in everything from the framework to our signature precision technique for preparing beams, tubes, angles, channels, and bolts. We providing steel material for fabrication such as :

PROFILE IWF

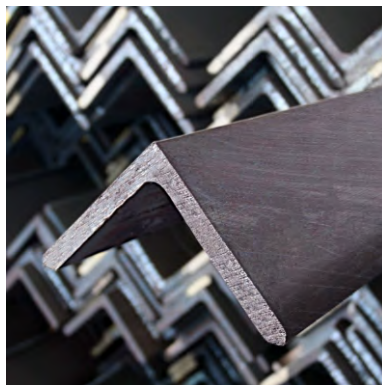

H-BEAM

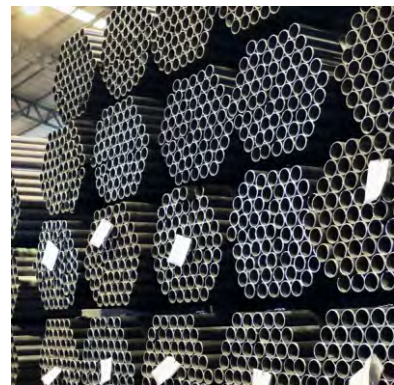

PLATE

CNP / UNP

ANGLE

PIPE

ROUND & DEFORMED BAR

WIRE MESH

SPIRAL PIPE

Excellent Fabrication Works

Steel Fabricator.

We characterize ourselves as an steel structure fabrication. What this essentially means is that we work with steel construction with the ability to fabricate any product custom item that uses wide flange, plate, and miscellaneous structural members.

PT. ASIA MULTI PERKASA perform of Engineering or design work, therefore we fabricate from drawings designed by and approved by architects or engineers. These drawings conform to recognized industry standards and specifications.

We are required to submit welding procedures, pre-qualification paperwork, quality control information, and/or other technical information prior to beginning work on the jobs. During many of these jobs, we assign an inspector for the duration of the project to insure fabrication is done in accordance with drawings, procedures and industry standards.

OUR SERVICES INCLUDE

We have successfully completed projects in Indonesia. Our services has a proven track record of:

Design & Build

Our engineering team started by making designs and apply the method construction of a project 3 dimensional images

Procurement Material

We start moving inside material procurement and assembling work planned and well conceptualized

Fabrication Material

Very high quality control detail is needed in order to be whole guaranteed project material, with quality and quality the best

Steel Erection

With a measured time and installation that is planned with our mature concentration do it in detail

Projects.

AMP has been satisfying its of customers with its consumer based custom fabrication. With our skilled craftsmanship and years of expertise, AMP has the means to get you exactly what you need and when you need it. We are dedicated to creating long-term partnerships with our customers by providing reliable service and dependable products. Examples of some of the items we have produced are steel building, steel bridge, steel tower, infrastructure, Bridges, station, airport and many more.

Statements.

QUALITY MANAGEMENT

With audited Quality Management, leading edge technology and the latest in fabrication equipment, we committed to providing highest quality product.

CORE VALUES

Our mission statement is to provide all clients with a quality product delivered on time, at a competitive price and in a safe and efficient manner.

QUALITY & COST

With careful consideration of safety, quality and cost we has proven it's ability to compete with the province's best in the fabrication industry.

HIGH PERFORMANCE

Community ownership of a strong, performance-oriented business such as AMP has supported the advancement of many important requirements.

“ Thank you for your interest in AMP Steel Fabricators.
We invite you to visit our professional staff in
our offices, to discuss your fabrication requirements.
Please join with PT. ASIA MULTI PERKASA and in strengthening
the economy and creating a brighter future for our people. ”
